Spaces worth staying in.

A pause in a journey. A meal shared. A conversation that lasts a little longer. Our memories of a place often begin with something simple: a comfortable chair and a welcoming place to sit.

WINSTONE SPACES is about the relationship between furniture, people and place. Our aim is to bring comfort, balanced proportions and practical details into the everyday life of hotels, restaurants, apartments, workplaces and outdoor spaces.

From quiet guestrooms to lively shared spaces, our collections centre on resting, gathering, dining and working. Materials, colours and combinations leave room for each setting to express its own character.

We believe the value of furniture lies in how it feels to use: settling in with ease, coming together naturally and finding a little more comfort in every stay.
